

Climbing

outdoor fabric

The Climbing fabric is Oeko-tex tested and fit for the task. Stain free, water repellent, anti- microbial and bacterial, mildew and odour resistant as well. And with a UV filter top grade of 5, it offers all the features you need and should expect of your new comfortable outdoor lounge.

100% Solution
Dyed Polyolefin

Martindale: 25.000

Lightfastness
(indoor/outdoor): 8

PRODUCT CHARACTERISTICS

Product group	100% solution dyed Polyolefin
Applications	upholstery heavy duty, accesories
Available colours	5

DURABILITY SPECIFICATIONS

Test	Test specification	Unit	Test result
Smolder resistance	California technical Bulletin 117: June 2013 - Requirements, Test Procedure and Apparatus for Testing the Smolder Resistance of Materials used In Upholstered Furniture	-	passed
Cover Fabric Test	NFPA 260 Standard Methods of Tests and Classification System for Cigarette Ignition Resistance of Components of Upholstered furniture - 2013; Fabric Cover Test and UFAC Fabric Classification Test Method - 1990; Standard test methods for Cigarette Ignition Resistance of Components of Upholstered Furniture ASTM E 1353-16	-	Class I
Abrasion resistance test	ASTM D 4157, Wyzenbeek test - wire screen	cycles	100.000
Simultaneous Determination of Ignitability, Flame Propagation, Heat Release and Smoke Release	AS/NZS 1530.3-1999	Range	Result
	Ignitability Index	0-20	16
	Spread of Flame Index	0-10	0
	Heat Evolved Index	0-10	1
Lightfastness	indoor	1-8	8
	outdoor weathering	1-8	8
UV test	ISO 4892-3: 5	1-5	5
Color fastness, blue scale		1-10	7/8

CLEANING SPECIFICATIONS

	<ul style="list-style-type: none"> - Do not bleach - Drip dry in shade - Do not dryclean - Do not tumble dry - Machine wash cool gentle cycle - Low iron max 110 °C - Warning: Iron reverse side, use barrier cloth

FABRIC MAINTENANCE

	<p>To remove stains like mud, ketchup, lipstick, or silly putty, you'll need to grab a teaspoon or flat utensil and scrape off any excess residue using the edge of the utensil. However, for stains like pen or coffee, this extra step is not necessary.</p>		<p>If you have a stain on your fabric, begin by applying some water to the affected area. Then, take a white paper towel and gently blot the stain. Avoid rubbing or using circular motions as this can damage the fabric and cause paper fibers to become embedded in it. Simply blot the stain until it is no longer visible on the paper towel. Repeat the process if necessary until the stain is completely removed.</p>
	<p>To remove a stain, begin by applying water to the affected area. Then, take a white paper towel and gently blot the stain. Be careful not to rub or use circular motions, as this can damage your fabric and cause paper fibers to become embedded in it. Instead, just blot the stain until it's no longer visible on the paper towel. Repeat this process as necessary until the stain residue is completely removed.</p>		<p>After removing the stain, it's important not to use a hairdryer or apply heat to the area. Instead, simply allow the fabric to air dry for best results. This will help to ensure that the fabric is not damaged and that the stain is fully removed.</p>
